

# School Zone Safety Supply

## Reflective Sleeve

Our Reflective Sign Post Sleeves enhance the visibility of school signs by converting the sign post into a reflective surface. The additional reflective sheeting products increase visibility and reflectivity during day, night, and in low light conditions. Reflective sleeves are an easy and effective way to help make your school zone safer.

Fluorescent yellow/green sheeting on .080" aluminum substrate. Three 3/8" holes punched down the center of the sleeve. Depending on the type of post you will be mounting the sleeve to, you can choose from the listed options. Size: 3-1/2" wide x 48" tall
